

POLICY FOR THE SELECTION OF SUPPLIERS AND COMPANIES

The Board of Trustees of the Agrónomos Sin Fronteras Foundation determines the following policy for the selection of suppliers and companies:

- 1.** We will try to contact suppliers and companies that are distinguished by their good reputation and, preferably, that have been referred by means or persons that are very reliable.
- 2.** The collaboration of any company or supplier that has been implicated in any legal action for speculation, embezzlement, money laundering or any other criminal act will be rejected.
- 3.** We will try to find suppliers with a spirit of solidarity who can provide the service needed, free of charge, as a collaboration to the humanitarian work of the Foundation. If this is not possible, the budget shall be as economical as possible.
- 4.** It will always be necessary to request three written estimates from three different suppliers in order to compare their prices and quality.
- 5.** The collaboration of companies may be agreed upon as long as it is in all respects favorable to our Foundation and the company meets the ethical and moral conditions.
- 6.** The transfer of the logo will only be possible on a temporary basis, prior agreement and, for a management or promotion that may benefit our organization and respects the ethical and moral principles that identify us.
